

## SUPERFAST BROADBAND FOR HARTLEBURY?

Worcestershire County Council has around £25m to spend on bringing superfast broadband into the county. Unfortunately, Hartlebury is not currently included in their plans for faster broadband due to perceived lack of demand in the village.

If you run a business in the village and require faster broadband access or if your domestic needs are not currently being met then we need you to join a small group of like minded individuals to form a working party which can access funding specifically for Hartlebury.

In the first instance please contact Mrs Jo Hyrons on 01299 405075 or [hartlebury.clerk@hotmail.co.uk](mailto:hartlebury.clerk@hotmail.co.uk) who will be able to put you in touch with other volunteers. Help is on hand to guide you through the process!
